

## WORK EXPERIENCE

### Prompta AI

Software Engineer

Toronto, Ontario

June 2024-September 2024

- Collaborated with a cross-functional team to debug issues and enhance features in an existing web application built with React and Django.
- Contributed to codebase improvements by creating and managing pull requests on GitHub, ensuring smooth workflow and code quality.
- Gained hands-on experience in front-end and back-end development, working with modern web technologies and frameworks.
- Developed skills in problem-solving and code optimization, learning to identify and resolve complex bugs efficiently.
- Adapted to a fast-paced environment, quickly learning new tools and technologies while maintaining a strong attention to detail.
- Participated in code reviews, providing constructive feedback to peers and ensuring adherence to best practices and coding standards.

## SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python.
- **Frameworks:** React.js, Redux, Node.js, Express.js.
- **Databases:** PostgreSQL, MongoDB.
- **Version Control:** Git.
- **Cloud Computing:** Amazon Web Services (AWS).

## PROJECT EXPERIENCE

### RPRT
